

## TRAFFIC MANAGEMENT

The Traffic Management Department at Mervyn Lambert was established in May 2007

We offer a complete Traffic management service including all aspects of high speed works, traffic light and Stop/Go systems, Mobile Lane Closures, Site Surveys, drawing up detailed plans, including CAD drawings where required, ECI (EarlyContract Involvement), plus liaising with and obtaining authorisation from local councils.

The company has an ongoing Training Programme and a Lantra awards accredited training school which ensures all operatives are trained to LANTRA awards standards appropriate to the type of work being undertaken.

### 12A/B HIGH SPEED TRAFFIC MANAGEMENT

- Contraflow
- Tidalflow
- Static lane closures
- Narrow lane running
- Road closure/diversion
- IPV
- VMS
- VAS

### 12D TEMPORARY TRAFFIC MANAGEMENT ON URBAN AND LOCAL ROAD

- Temporary Traffic Lights
- Stop/Go
- Convoy
- Priority Systems
- Temporary Pedestrian Lights
- Road Closure/Diversion
- Low speed Lane Closures
- VAS
- VMS

### 12C MOBILE LANE CLOSURES

12C mobile lane closures is a much under used sector of traffic management, but here at Mervyn Lambert traffic management we feel it is an integral sector in moving forward to safer systems of work for traffic management operatives. This causes less congestion for the road user used on the faster moving aspects of highway maintenance like gully cleaning, grass cutting and clean and change on lamp columns.
